

TO WHOM IT MAY CONCERN,

Polliticy strives to encourage civic engagement and connect communities with their local elected officials. With Polliticy, constituents vote on polls relating to community-specific issues and the results are sent to local representatives, giving constituents influence in local legislation. Our app is already on the app store but is in need of upgrades. Here is what I am offering eager students:

- A brief virtual or in-person interview to discuss hourly pay and equity stake.**
- Flexible schedule**
- A chance to be part of a company that allows for constructive expression, inspired social cohesion, and the mindfulness of the achievements and challenges we face as a nation.**
