REU Opportunity:

Graphic Designer Needed

for Creating Educational Materials

The Storytelling team at Montana State University is looking for a current undergraduate student to join the team this summer! The storytelling team engages American Indian and rural Montana middle school students in learning computer science and computing skills through e-textiles and Alice, an object-based educational programming environment. Visit our website to learn more about the project and the team:

www.montana.edu/storytelling/

Email **storytelling@montana.edu** with any questions.

WHO CAN APPLY?

Any undergraduate from a US institution who is a US citizen or permanent resident is eligible to apply. We are looking for someone with graphic design experience (e.g., using Illustrator) to help us build and revise our recruitment and teacher training materials.

WHAT WILL YOU GET?

Students will be provided with a $500 stipend + housing/food sustenance allowance.

WHAT WILL YOU DO?

In this research experience for undergraduates (REU), you will assist with implementing and running teacher training and will help revise recruiting and advertising materials for the project. The duration of the REU is 6-8 weeks and will be remote. Exact dates will be mutually determined.

How do I apply?

Complete the application at www.montana.edu/storytelling/opportunities by **April 25** (for priority selection). Applications accepted on a rolling basis.
